The 2024 National and Provincial Elections will be a watershed moment for our nation. Almost 30 years have passed since the dawn of South Africa's new dispensation with its promises of a better future for us all.

Yet today, we still face glaring injustices and inequality, and many of us still live below the poverty line with little hope of finding meaningful employment. Most people feel unsafe, and are afraid of becoming the target of opportunistic criminals.

The ACDP is built on a strong Biblical foundation that seeks to honour God and put you and your needs at the centre of its policies.

The ACDP:

- Protects religious rights and ensured that South Africa today is not a secular state and that religious observances may be conducted in state institutions.
- Supports an open-market economy with a social conscience.
- Protects property rights and opposes the expropriation of land without compensation.

- Opposed government's draconian Covid-19 lockdown regulations that devastated livelihoods and our economy. We also opposed mandatory vaccines for Covid-19 and legally defended many who were unjustly fired for refusing to be vaccinated against their will.
- Provides vital oversight. Our key role in Parliament's Eskom Enquiry into state capture and corruption is one such example.
- Protects family values and opposes abortion-on-demand, pornography, and attempts to legalise prostitution. We also opposed government's Comprehensive Sexuality Education (CSE) curriculum.
- Promotes quality education where parents play a central role, and protects the rights of home schoolers. We opposed the Basic Education Laws Amendment Bill (BELA Bill) where thousands of submissions opposing the bill were ignored.
- Opposes the General Intelligence Laws Amendment Bill which will require state security vetting for anyone wanting to establish a non-governmental organisation or church.
